WATTANALYSIS

China's energy system - and the global supply chains it is reshaping

COMPLIANCE DESK | ONE-PAGE BRIEF | NOVEMBER 2026

Avoiding mistakes on tariffs, origin rules and Chinese-supplier judgement

The Compliance Desk is WattAnalysis's institutional service for teams whose projects live or die on trade rules and certification. Every figure we publish is traced to its primary source - a gazette, an official journal, a ministry announcement - and every gap is admitted on the record. Nothing is derived, filled in or quietly merged across statistical calibers.

Who it is for

Trade-compliance, customs and sourcing leads; strategy and procurement teams at energy firms exposed to Chinese supply chains; boutique advisory firms that need a China desk without building one.

What is included

- Tariffs & Market Access tracker - 21 measures into the US, EU, India and Canada, plus China's own export controls, reviewed monthly against official texts; members are alerted as measures change.
- Full Data library - 39 monthly indicator series, provincial data for 28 of 31 provinces, customs masters (incl. the "new three" exports), and a machine-readable API with bulk downloads.
- Standards library - ten segments checked standard by standard against official texts in China, North America and Europe / International, with status and supersession tracked.
- All Analyst research, for your whole team (multi-seat), plus a direct analyst channel and a monthly Q&A.
- Bespoke due-diligence and market-entry engagements, scoped per project.

Why teams switch to us - three corrections from our first review

1) China's October 2025 export-control package did NOT take effect on 11 Nov 2026: MOFCOM/GACC Announcement No. 58 of 2026 extends the suspension to 10 Jan 2027. 2) Canada's 100% EV surtax was REPEALED on 1 Mar 2026 (SOR/2026-33) and replaced by a 49,000-units-a-year import quota. 3) India's solar anti-dumping duty is a DGTR recommendation only - not in force. If your current source shows any of these the other way, it is costing you money.

Terms

From $1,200 per institution per year, billed annually by invoice. Engagements are agreed institution by institution - scope, seats and jurisdictions differ. Founding seats are open now and founding pricing is locked for as long as you stay subscribed.
